

CRAFTING TOMORROW WORKSHOP

building community through craft

The second edition of the ongoing series *Crafting Tomorrow* immerses fashion design students in the rich traditions of embroidery, emphasizing practical skills and a deep appreciation for culture. Through hands-on embroidery sessions taught by skilled artisans, participants will explore various raw materials, dyeing processes, and stitches, blending traditional craft skills with modern applications. The workshop is preceded, on Thursday 27 June at 4 pm, by a guided tour of the *Cosmic Garden* exhibition, a collateral event of the 60th International Art Exhibition - La Biennale di Venezia, that emerges from a fertile exchange between **Madhvi Parekh**, **Manu Parekh**, **Karishma Swali**, and the Chanakya School of Craft in the frame of the research project "Tempi responsabili-Responsible Times" conducted by **Saul Marcadent** / research contract "Tessere la sostenibilità" under the National Operational Programme on Research and Innovation 2014-2020
